

TCM Forklift Parts

TCM Forklift Parts - In the global business of material handling, lift trucks play a major part for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in the U.S., forklifts gained recognition after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread internationally.

Initially founded as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first lift truck. Throughout the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation with the industry. TCM began constructing forklift manufacturing sites outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes various models of industrial lift trucks with more than 50 years of accumulated expertise and technology, making their products recognized and used all over the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading business.
