

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift vehicles in operation, with upwards of 250,000 of those in use in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique designs of lift trucks, with components covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Globally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is currently a customary feature on every lift truck.

Clark has a unrelenting objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the structure of "Lean Production" at all of its assembly plants for the reason that this technique is extremely economical and allows for minimal use of resources. Developed to guarantee maximum proficiency, this system is designed to find and acknowledge the most efficient ways for production plant stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to develop the effectiveness and excellence of their products while minimizing expenses. The new value engineering program combines modern product development and provides superior customer support and service within the industry.
