

Meritor Part

Meritor Parts - Meritor is a premier international dealer that is proudly built on a 100 year custom of quality and service. They concentrate on a broad range of integrated systems, modules and components to original machine manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the needs of their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their international operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

Meritor strongly believes in only employing future focused employees. These top-caliber workers could rapidly get used to to changing surroundings and freely demonstrate the level of performance and commitment considered necessary in order to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor offers all of their employees various possibilities for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the needs of their worldwide engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group which is devoted to ensuring optimum growth at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 nations.

The supplier development network is specifically located to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each aspect of the business. The DFSS or also referred to as Design for Six Sigma ensures product reliability in each region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business processes and apply lean methods.
