

Forklift Spreader Bars

Spreader Bar for Forklift - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader company around the globe. They have been a dedicated manufacturer of spreaders designed for various applications like for example the handling of containers, swap bodies and trailers.

Engineering is done in-house by making use of all of the most up-to-date FEM tools and CAD systems. The ELME business currently has more than 125 staff members. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the world.

The product series of ELME include lots of spreaders designed for various container and trailer handling operations. Several of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks and a huge variety of attachments.

Manufacturing and production of ELME products are established in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by way of using quality parts to be able to guarantee reliability and excellent standards. Major features of ELME consist of design simplicity, market response and ground-breaking modular spreader concept.
