

Advance-Nilfisk Parts

Advance-Nilfisk Part - Think about how long and tedious it would actually be to clean-up right after a party, with out help from equipment. Previously, the dirt from upholstery and carpets had to be beat out of them manually; cleaning cloths, brooms, and brushes were the top cleaning products back then.

P.A. Fisker, the man who established Nilfisk-Advance, was an electrical engineer who loved working with electrical motors. Establishing the company in 1906, he began to make motors to drive fans, machine tools, coffee grinders and drills. Mr. Fisker's vision from the start was to have an international company selling merchandise internationally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning business. Mr. Fisker invented a incredible, ground breaking vacuum cleaner that could be operated by one person for the reason that it just weighed 17.5 kilos! This invention came in a time where many cleaning machines were very big and required 4 or more operators, hence, the Nilfisk C1 changed everything and evolved the way we clean forever. The genius behind these first cleaning equipment remains unparalleled. Cleaning equipment offer a brilliant solution to an ongoing problem; things get filthy and need to be cleaned on a regular basis, without too much effort.

Gradually, the business Nilfisk-Advance grew throughout the years. During the the early part of the 1980's the company grew fast when the company became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance ahead within the industry, aspiring to be an active global player in manufacturing professional cleaning machines. Nilfisk-Advance is now located in every part of the world due to gradually acquiring numerous small businesses to be able to grow their product selection and presence in new markets. They are proud to offer different cleaning solutions to fit each and every need.
